

Recruiting for an Investment Professional (Bangalore, India)

Elevar Equity, a human-centered capital firm, invests in transformative and scalable ventures focused on underserved customers in low-income communities in India and Latin America. Led by an entrepreneurial emerging markets team regarded as pioneers in impact investing, Elevar has been the founding or early growth capital in several profitable and affordable distribution models. Elevar's investments span financial services, education, agriculture, healthcare and housing. The Elevar Method of investing has democratized access to essential products and services for over 25 million underserved customers and catalyzed billions of dollars of capital into more than 35 companies.

POSITION & RESPONSIBILITIES:

We are currently seeking an Investment Professional to join our India team. Day to day activities would include: (i) working with entrepreneurs and management teams of Elevar's investee companies, (ii) managing all aspects of the investment process including origination, modeling, diligence, documentation and structuring of transactions, and preparing investment memorandums for Elevar's investment review committee, (iii) portfolio management including developing and tracking monthly financial and operating metrics of companies plus quarterly valuation analysis, (iv) working on exits and preparing exit recommendations, and (v) ad hoc special projects.

CRITERIA TO BE AN ELEVARIAN:

We are looking for a candidate who has a rare mix of confidence, excellence, curiosity, empathy and humility. If you feel a sense of urgency to drive transformational change for low-income communities and have demonstrated a relevant commercial track record based on the criteria below, we would love to hear from you.

- Minimum 8 years of experience in entrepreneurship, business, investing, finance, investment banking, business/operations consulting or a similar background, with a willingness to unlearn and relearn at Elevar (including over lunch conversations, street food and field trips).
- Demonstrated ability to build/analyze financial models, understand business models, navigate large datasets to distil key points. Should have strong research capabilities, an aptitude for project management and exceptional business communication skills (written, spoken and presentations) with a bias for simplicity and clarity.
- Attention to detail (can find a needle in a haystack), a willingness to work hard/take ownership (bias for immediate action), a tremendous sense of humor (ability to laugh at oneself), a team player (organizational goals over individual credit) and the ability to take instant feedback (an opportunity for growth).
- A deep desire to work at Elevar (given its unique organizational culture) and with a diverse, international and cross-continental team, without being consumed by formal roles/titles or conventional career paths.

APPLYING:

Interested candidates are requested to send a cover letter and resume to recruit@elevarequity.com with the email subject line "IP EE BLR". We want to know why you want to work at Elevar and why we should recruit you (share examples of things you have done, how you would approach your day to day job and the criteria that you do not meet). If we get curious about your application, you will hear from us within 10 days. Elevar is an Equal Opportunity Employer.
